# LASER ENGRAVED SLEEVES

“USE IN ANY KIND OF FLEXOGRAPHY PRINTING”.

## STEPS TO MOUNT SLEEVE:

- Start Air supply
- Insert Sleeve
- Stop Air Supply
- Start Printing

Printing with laser engraved sleeves has an edge over the conventional technology. With the help of laser engraved sleeves, you can achieve optimal quality of printing.

## BENEFITS OF LASER ENGRAVED SLEEVES:

1. Highly durable with excellent printing quality
2. Easy to use
3. Reduce job changeover time
4. Quick job set-up
5. Saving by eliminating adhesive tapes
6. Seamless/jointless print result
7. Consistency in terms of speed, longevity and quality

**PAL PRINTECH LLP** has a legacy of three major groups of India, **Pin Mark, Arvind and Line O Matic**. We are following the footsteps of our patronage. We always try to deliver the highest level of quality to our customers.

Our emerging organization is based at Ahmedabad, indulged in manufacturing Laser Engraved Rubber Sleeves to propound sterling printing alternative over traditional to the Flexible packaging, Notebook Printing and Label Printing industries.
